<b>Exam Stop:</b>	Mon Dec 18 2023 10:27:36
<b>Time Spent:</b>	0:17:42

# Question 1

Compute the following set operations, given the sets:

$$U = \{1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20\}$$

$$A = \{2, 4, 8, 9, 10, 12, 13, 18, 20\}$$

$$B = \{x \in U : x \text{ is a multiple of } 4\}$$

$$C = \{x \in U : x > 15\}$$

Please enter all the sets below using the set enumeration method. To enter a set, please enter it using the notation `set( [list of elements] )`, for example `set(1,2,3,4)`. To enter the empty set, enter `set()`.

a)

$$(B \cup C) \setminus (A \cup B) =$$

`set(17,19)` {17, 19} ✓

Expected answer: set(17,19) {17, 19}

✓ Your answer is numerically correct. You were awarded 1 mark.

You scored 1 mark for this part.

Score: 1/1 ✓

b)

$$\overline{(A \setminus (A \cap B))} =$$

`set(1,3,4,5,6,7,8,11,12,14,15,16,17,19,20)`

{1, 3, 4, 5, 6, 7, 8, 11, 12, 14, 15, 16, 17, 19, 20} ✓

Expected answer: set(1,3,4,5,6,7,8,11,12,14,15,16,17,19,20)

{1, 3, 4, 5, 6, 7, 8, 11, 12, 14, 15, 16, 17, 19, 20}

✓ Your answer is numerically correct. You were awarded 1 mark.  
You scored 1 mark for this part.

Score: 1/1 ✓

c)

$$B \setminus \overline{(C \setminus B)} =$$

set(4,8,12) {4, 8, 12} ✗

Expected answer: set() {}

✗ Your answer is incorrect.

You scored 0 marks for this part.

Score: 0/1 ✗

## Question 2

What are the properties of the relation with the domain  $\{1, 2, 3, 4, 5, 6\}$  and codomain  $\{3, 8, 11, 12\}$  given by:

x	y
1	8
2	3
3	12
4	11
5	12
6	12

What are the properties of this relation? (Check all that applies).

☐ Not a function ☒ A function ☒ A surjective function

- ☐ An injective function      ☐ A bijective function

### Expected answer:

- ☐ Not a function      ☒ A function      ☒ A surjective function
- ☐ An injective function      ☐ A bijective function

✓ Your answer is correct. You were awarded **3** marks.  
You scored **3** marks for this part.

Score: 3/3 ✓

## Question 3

What are the properties of the relation with the domain  $\{1, 2, 3, 4, 5, 6\}$  and codomain  $\{2, 5, 6, 7, 10, 11, 12\}$  given by:

x	y
1	2
2	10
3	11
4	5
5	6
6	12

What are the properties of this relation? (Check all that applies).

- ☐ Not a function      ☒ A function      ☐ A surjective function
- ☒ An injective function      ☐ A bijective function

## Expected answer:

- ☐ Not a function    ☒ A function    ☐ A surjective function
- ☒ An injective function    ☐ A bijective function

✓ Your answer is correct. You were awarded **3** marks.  
You scored **3** marks for this part.

Score: 3/3 ✓

## Question 4

What are the properties of the relation with the domain  $\{1, 2, 3, 4, 5, 6\}$  and codomain  $\{1, 3, 4, 6, 7, 10, 12\}$  given by:

x	y
1	7
2	6
3	10
4	3
5	12
6	4

What are the properties of this relation? (Check all that applies).

- ☐ Not a function    ☒ A function    ☐ A surjective function
- ☒ An injective function    ☐ A bijective function

## Expected answer:

- ☐ Not a function    ☒ A function    ☐ A surjective function
- ☒ An injective function    ☐ A bijective function

✓ Your answer is correct. You were awarded **3** marks.

You scored **3** marks for this part.

**Score: 3/3** ✓
